

COMMUNICATING WITH YOUR LOVED ONE

Please understand that we are NOT guaranteed cell coverage in any of the areas we will be working or staying. Cell coverage and network reliability can be erratic and spotty in foreign countries. There is an outside chance that we could have little to no direct contact depending on conditions/network services. WiFi is spotty at best and not found easily like it is in the USA.

Please do not attempt to contact us or touch base with your family member nightly. Again, we will contact you via a text message when we have free time to communicate. We need our rest after long days of ministry in hot weather and we need to be fresh for the next morning.

IN CASE OF EMERGENCY

In case of an emergency where you believe your loved one will need to return home, please contact the team leader's cell phone FIRST and Launch International.
